The Stock Market Game (SMG) - Grades 4 through 12

How It Works:

- **Virtual Cash** - students are given \$100,000 to develop a portfolio.
- **Collaboration** - students work in teams of 2-5 to research potential investments
- **Enrichment** - students can use the lessons from their teacher/advisor to help further their knowledge of the stock market and other financial concepts.
- **Management** - students can buy and sell stocks, bonds and mutual funds in real time.
- **Experience** - Students assume the risks associated with real world events that may affect the markets.

SMG is an online simulation of the global capital markets that engages students in the world of investing and personal finance and prepares them for financially independent futures.

SMG maps to national state educational standards, meets the College and Career Readiness anchors, and reinforces STEM concepts and practices.

SMG Sessions Available:

- **Competitive** - students compete against other students in their grade level and geographic area for prizes.
- **Enrichment** - students trade in real time without the pressure of going head to head with other students.
- **Teacher Prep** - a trial session for teachers to see all the resources SMG has to offer.

The SMG Teacher Support Center is available 24/7 with curriculum resources, lesson plans, activities, projects, standards correlations and instructional guides to help enhance the SMG experience! Perfect for use in various school subjects!

SMG is provided by  FOUNDATION and its members firms.

An innovative national writing competition. Visit <https://www.investwrite.org/>

connects educators with financial industry professionals to promote youth financial capability. Visit <https://investitforward.sifma.org/>.
