

John C. Daniels Memorial Scholarship

John (Jack) C. Daniels had a distinguished career, serving eighteen years with Molycorp, Inc., a manufacturer of ferr-alloys used as additives in the steel industry. Most of his career was spent as a front-line supervisor and being a project manager for remediation activities at the plant, as well as, holding the position of operations supervisor.

Devoted to the development of children and education, Jack was actively involved in youth activities at his church and deeply committed to Pennsylvania Free Enterprise Week where he served with great distinction as a “Company Advisor.” He had a perpetual twinkle in his eye and a smile for everyone that was invariably accompanied by words of encouragement.

Jack passed away on May 22, 2000, after a brief but courageous battle with brain cancer. While he is gone from us, his lasting legacy will be his devotion to young people through the many years he served at PFEW.
